

Call 2018-R

COVER SHEET

Enclosure 1: Description of the Research Project

SNSB rules for this enclosure

Required contents

- A general summary of the proposed research project (copy from Form C allowed).
- Detailed description of the proposed research project. The programme must be described with sufficient background information to allow a peer with no prior knowledge of the work of the research group to make a good evaluation of the proposed project.
- Schedules and work packages must be given whenever applicable. The total amount of work must be broken down into work packages to a level of detail that allows an evaluation of the feasibility to complete the project on time and within budget.
- If more than one cost module is used on Forms F1-F4, then reflect this in text and work packages.
- Specify clearly how the proposed project is related to current or future space missions (including sounding rockets and balloon flights). Give clear information on how the research group has or intends to get access to data or be involved in the planning of the space mission.
- If applicable, describe applications of the project and societal benefits (don't include general statements about the value of basic research to society).
- The staff situation and the responsibilities of individuals.

Size of this enclosure (excluding this cover page)

Maximum 12 pages (including own text, illustrations, letters of support, etc.)
