

## Call 2024-C Career Support Grants

Formal SNSA allocations for grants were decided on 2025 January 2. The table below does not guarantee funding. The grants are planned to be specified in Prisma in the first half of January, followed by agreement to the grant terms by researchers and organisations. Feedback to all applicants can be expected in January.

Dnr	First name	Surname	Gender	Project title	Organisation	Type of position	Grant (kkkr)					Sum
							2025	2026	2027	2028	2029	
2024-00162	Johan	<b>Nilsson</b>	male	Remote Sensing of the Cryosphere and Terrestrial Water Sources using Satellite Altimetry	Uppsala U.	Senior Researcher, maximum 6 years	1 493	1 797	1 830			<b>5 120</b>
2024-00171	Arthur	<b>Loureiro</b>	male	Measuring the Lightest Neutrino Mass with synergies between the Euclid Space Telescope and the Planck Satellite	Stockholm U.	Research Fellow, 4 years	1 321	1 349	1 377	1 405		<b>5 452</b>
2024-00179	Stefania	<b>Giacomello</b>	female	The Impact of Spaceflight on the Brain	KTH	Senior Researcher, max. 6 years, 30%	689	705	720			<b>2 114</b>
2024-00186	Ritwika	<b>Mukhopadhyay</b>	female	Prediction and Mapping of Understorey Vegetation Coverage and Change Analysis in Fennoscandian Ecosystem Using Satellite Remote Sensing Data	SLU	PostDoc, 2 years	1 210	1 231				<b>2 441</b>
2024-00188	Cynthia	<b>Sassenroth</b>	female	Glacial and Permafrost Dynamics on Mars: Insights into Martian Climate, Hydrology and Habitability	Göteborg U.	PostDoc, 3 years	1 330	1 328	1 360			<b>4 018</b>
<b>Sum (kkkr):</b>							<b>6 043</b>	<b>6 410</b>	<b>5 287</b>	<b>1 405</b>		<b>19 145 kkr</b>
