

Call 2024-N Grants in Support of International Space Missions

Formal SNSA allocations for grants were decided on 2024-07-03 for one grant and on 2025-01-02 for three additional grants. The tables below do not guarantee funding. The grants are planned to be specified in Prisma in the first half of January, followed by agreement to the grant terms by researchers and organisations. Feedback to all applicants can be expected in January.

For the project on the Earth Climate Observatory, the decision foresees continued support beyond the two-year grant if certain conditions are fulfilled. No long-term commitments are associated with the three final grants.

Dnr	Project	Principal applicant	Gender	Affiliation	2025	2026	2027	2028	Total
2024-00122	Earth Climate Observatory	Thorsten Mauritsen	m	Stockholm U.	1 526	1 599			3 125
Sum (kkkr):					1 526	1 599	0	0	3 125

Dnr	Project	Principal applicant	Gender	Affiliation	2025	2026	2027	2028	Total
2024-00123	LISA	Ross Church	m	Lund U.	1 933	3 010	3 091	2 232	10 266
